CALIFORNIA COW BREAKS

WORLD'S BUTTER RECORD

Woodland, Cal., November 10.—The world's record for butter production has been broken by Aggie Acme, a Holstein cow owned by A. W. Morris & Sons, of Woodland, in a test conducted under the supervision of the University of California.

The cow yielded 1,331.41 pounds of butter in 365 days; 1,187.96 pounds of butter in 365 days and 2,446.37 pounds of butter in two years. In each instance the records displace those established by Keystone Beauty Plum Johanna, a Holstein, owned by Stevens & Sons, of Pennsylvania. It was contended.

Aggie Acme milk production in 695 days was 22,032.8 pounds.

RECORD FOR WEEK.

TUESDAY.

The situation in Russia as a result of the Bolshevik revolution is still obscure. No direct dispatches have been received from the Russian capital since Sunday evening, when it was reported that there had been considerable street fighting in various parts of the city in which the military cadets, followers of Premier Kerensky, were worsted by the Bolshevik troops at several points. The fighting was begun by the cadets owing to reports that Kerensky with a large body of men was close to the capital. The Premier and his followers, however, had not put in an appearance up to Sunday night.

The Italians are stoutly holding the line along the Piave, and also in the region running westward through the hills country from the vicinity of Feltri to the Sette Comuni. Several attempts made by the enemy to pierce the northern front and encircle the Italian left wing have failed. Opposing armies are in battle array along the Piave and a heavy cannonade is in progress.

A state of war has been proclaimed in Finland. The provisional Soldiers' Committee has appointed a sailor to succeed Gov. Nekrasoff. Reports that the Aland Islands had been occupied by Germany were discredited by dispatches from the Scandinavian capitals to the effect that travelers leaving there Friday reported normal conditions.

To facilitate transportation of lumber needed for new ship building yards 1,500 flat cars have been turned to lines operating in the southeastern part of the country, the Railroad War Board announced.

TO RESIST THE ATTACK

of the germs of many diseases such as Grip, Malaria, means for all of us—fight or die. These germs are everywhere in the air we breathe. The odds are in favor of the germ.

What is needed most is an increase in the germ-fighting strength. To do this successfully you need to put on healthy flesh, rouse the liver to vigorous action, so it will throw off these germs, and purify the blood so that there will be no weak spots, or soil for germ-growth.

We claim for Dr. Pierce's Golden Medical Discovery that it does all this in a way peculiar to itself. It cures troubles caused by torpid liver or impure blood.

WOODFORD, TENN.—"This is to certify that I have used Doctor Pierce's Golden Medical Discovery for my two little boys. One had night sweats, poor appetite, scallow complexion, and had quit growing, but after giving him, part of a bottle of the 'Discovery' he commenced to gain weight and grow. He doesn't have the night sweats and looks much better. My other little boy had scrofula and this medicine cured him after the doctor's medicine had failed. I do not hesitate to recommend the 'Discovery' at all times."—MRS. ROSA LEE HOGAN, Route 1.

Dr. Pierce's Pills are unequalled as a Liver Pill. One tiny, sugar-coated Pellet cures Sick Headache, Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and derangements of the Liver, Stomach and Bowels.

MONDAY.

Apparently the Bolshevik uprising in Petrograd is nearing its end and Premier Kerensky may soon again be in power. Late advices from Petrograd are to the effect that the revolutionists are to be defeated in Moscow and at Tsarskoe-Selo and from the latter town, which is fifteen miles from Petrograd, are retreating a disorderly mob toward the capital. In Petrograd street fighting has occurred, with the Cosacks and other loyalists having the better of the Bolshevik element, while Kerensky, with 200,000 men is on his way from Gatchina to re-enforce the loyalists. To stay his progress however the rails of the Petrograd-Gatchina railway have been torn up and three forces of the Bolsheviks are said to have gone out to give battle.

The Germans Sunday made no attempts to re-capture the ground taken from them by the British Saturday in the region of Passchendaele, contenting themselves merely with the bombardment of the newly won line. A heavy rainfall prevented the British from extending their offensive. Bombardments and minor attacks have predominated on the remainder of the western front, except near Hartmannswiller-Kopf, in the Vosges Mountains where in a violent battle, the French completely repulsed the Germans. At one point the Germans succeeded in entering the French observation line, but in a hand-to-hand encounter they were almost immediately driven out.

HOW TO HANDLE SHEEP.

Farm and Fireside the national farm paper published at Springfield, Ohio, says in the November issue:

"To have good mutton the sheep must be in good health, fat and gaining in flesh. In preparing for slaughter, the sheep should be taken off feed for about fifteen hours, with the exception of lamb, which are liable to worry if taken from their mothers causing a rise in temperature. Always handle the sheep with care. Do not chase kick or pound them around, and never pull them around by the fleeces as this will leave colored and bruised spots on the carcass. The proper way to catch a sheep is by the hind leg, neck, or rear flaps and hold it by placing one hand under the lower jaw and the other at the dock. If these few precautions are carried out the men will be better."
